MISSION STATEMENT: TO BE EDUCATED

MISSION STATEMENT: TO BE EDUCATED

If I learn my ABCs, can read 600 words per minute, and can write with perfect penmanship, but have not been shown how to communicate with the Designer of all language
I have not been educated

If I can deliver an eloquent speech and persuade you with my stunning logic, but have not been instructed in God's wisdom,
I have not been educated

If I have read Shakespeare and John Locke and can discuss their writings with keen insight, but have not read the greatest of all books – the Bible – and have no knowledge of its personal importance,
I have not been educated.

If I have memorized addition facts, multiplication tables, and chemical formulas, but have never been disciplined to hide God's Word in my heart.
I have not been educated

If I can explain the law of gravity and Einstein's theory of relativity, but have never been instructed in the unchangeable laws of the One Who orders our universe,
I have not been educated

If I can classify animals by their family, genus and species, and can write a lengthy scientific paper that wins an award, but have not been introduced to the Maker's purpose for all creation,
I have not been educated

If I can recite Gettysburg Address and the Preamble to the Constitution, but have not been informed of the hand of God in the history of our country,
I have not been educated

If I ca play the piano, the violin, six other instruments, and can write music that moves men to tears, but have not been taught to listen to the Director of the universe and worship Him,
I have not been educated

If I can run cross-country races, star in basketball and do 100 push-ups without stopping, but have never been shown how to bend my spirit to do God's will,
I have not been educated

If I can identify a Picasso, describe the style of da Vinci, and even paint a portrait that earns an A+, but have not learned that all harmony and beauty comes from relationship with God,
I have not been educated

If I graduate with a perfect 4.0 and am accepted at the best university with a full scholarship, but have not been guided into a career of God's choosing for me,
I have not been educated

If I have become a good citizen, voting at each election and fighting for what is moral and right, but have not been told of the sinfulness of man and his hopelessness without Jesus Christ,
I have not been educated

However, if one day I see the world as God sees it, and come to know Him, Whom to know is life eternal, and glorify God by fulfilling has purpose for me,
Then, I have been educated!

- Vanweë al die portefeuljewerk wat vir elke vak voltooi moet word, sal **GEEN vakveranderings** toegelaat word na amptelike graad 11/12 registrasie nie.

- **GEEN STUDENT word toegelaat om matriek (7 vakke) in een jaar af te lê nie,** (1ste of 2de jaar) selfs al het hy/sy gr11 reeds voltooi. Die matriek word oor 2 jaar gedoen: 3 vakke(gr11/12) word in jou graad 11– jaar afgeskryf en die laaste 4 vakke(gr11/12) in jou graad 12– jaar.
- Wiskunde, Wiskunde Gelettertheid en Fiesiese Wetenskappe moet oor 2 jaar geneem word.
- Fisiese Wetenskap mag slegs as vak geneem word, indien jy Wiskunde as vak het.
- Jy mag jou matriek in meer as twee sittings doen, maar sal dan egter nie universiteitstoelating kry nie
- **Geen graad 11 sertifikaat word uitgereik nie.**
- Die twee aparte sertifikate word aan die einde van jou finale jaar gekombineer en jy ontvang ‘n amptelike matrieksertifikaat met universiteitstoelating.

- Due to the large amount of portfolio work for each subject, **NO subject changes** will be allowed once students have officially registered for Grade 11/12

Kombinering van sertifikate:

NB! NB! **Geldig slegs vir leerders wat Graad 12 in 2 sittings by Le-Amen doen. Slegs geldig vir leerders wat al 7 vakke in die 2 sittings suksesvol slaag.**

- Na jou eerste jaar studies, ontvang jy 'n "verklaring van uitslae" brief vanaf IEB deur die pos in Januarie van jou tweede jaar. Dit sal die uitslae van die eerste 3 vakke aandui wat jy in die vorige jaar geskryf het.
- In April van jou tweede jaar, kry jy 'n "vakverklaring sertifikaat" vanaf Umalusi, wat die uitslae van die vakke in jou eerste jaar bevat. Dit word na Le-Amen gestuur. Kontak Le-Amen om dit te bekom.
- Nadat jy jou tweede jaar voltooi het, kry jy weer 'n "verklaring van uitslae" brief vanaf IEB deur pos in Januarie. Hierdie keer bevat dit die uitslae van die vakke wat jy in jou 2de jaar voltooi het.
- Die volgende stap is om Le-Amen te kontak. Le-Amen vra dan vir 'n gekombineerde verklaring van uitslae, wat dus die 7 vakke bevat wat jy oor die 2 jaar suksesvol geslaag het. Hierdie verklaring gebruik jy as bewys dat jy matriek suksesvol geslaag het, totdat jy jou amptelike finale Nasionale Senior Sertifikaat ontvang.
- Gedurende April, in die jaar nadat jy jou 2de jaar voltooi het, kry jy 'n tweede "vakverklaring sertifikaat" vanaf Umalusi, wat die uitslae van die vakke in jou tweede jaar bevat. Dit word na Le-Amen gestuur. Kontak Le-Amen om dit te bekom.
- Jy moet nou Le-Amen kontak vir 'n aansoekvorm om jou 2 sertifikate te kombineer vir 'n Nasionale Senior Sertifikaat. Vul die vorm in, tesame met bewys van betaling aan IEB. E-pos na IEB. Na ongeveer 6-8 weke sal IEB jou kontak en jy kan dan jou finale Senior Sertifikaat by IEB gaan afhaal.

Le-Amen se Beleid

Dit is vir ons baie belangrik dat julle verstaan presies wat Le-Amen aanbied en verwag en waar die verantwoordelikheid vir hierdie baie belangrike jaar lê:

- Die finale verantwoordelikheid vir die effektiewe voorbereiding vir die eksamen rus op die matriekleerling se skouers
- Le-Amen skakel direk met die leerlinge/ouers.
- Van die ouers word verwag dat hulle ondersteuning en aanmoediging sal gee
- Ouers moet ook ten alle tye weet hoe hulle kind vorder en tot watter mate hy/sy aan die vereistes voldoen
- Le-Amen bied ‘n ondersteunende rol ten opsigte van materiaal, die nasien van opdragte, die Junie winterskool en eksameninskrywings
- Le-Amen stuur die proses deur die streng toepassing van toelatingsvereistes soos die instuur van opdragte, Junie eksamen en rekordeksamen. Dit verseker dat die leerlinge die nodige pas handhaaf sodat hulle gereed is om in November eksamen te skryf
- Le-Amen wil nie betrokke raak by persoonlike en huissake nie
- Le-Amen gaan werksopdragte wat laat is, aanvra en waarskuwings uitstuur.
- Die personeel by Le-Amen sien dit ook nie as hulle plig om leerlinge oor swak werk aan te spreek nie.
- Dit is nie Le-Amen se beleid om aan jou te verduidelik of terugvoering te gee oor enige opdrag nie.

E4

The Le-Amen Policy

It is important that you know who is responsible for the different aspects of this important phase and what the role and expectations of Le-Amen are:

- The final responsibility for the effective preparation for the final examinations lies with the matric learner
- Le-Amen deals directly with the learners and parents.
- Parents should provide the necessary support and encouragement
- Parents should always be informed by the learners about the progress of their children and to what extent they are meeting the requirements
- Le-Amen offers support in the form of material, marking of assignments, the June winter school and enrolments for the exam
- Le-Amen directs the process by the strict application of admission requirements like submitting good assignments, June exam and Prelim. This helps learners to work at the necessary pace so that they will be ready to write the exam in November.
- Le-Amen does not want to be involved in personal and family problems.
- Le-Amen will enquire about assignments that are late or not submitted at all and warnings will be given.
- The staff at Le-Amen will not assume the role of reprimanding learners when poor work is submitted.
- It is not Le-Amen policy to explain or give any report back on assignments.

A5
Leerders

- Jou matriekjaar moet ernstig opgeneem word en jy sal baie hard moet werk aangesien die standaard hoog is.
- Die leerders is vir Le-Amen baie belangrik en dit is ons missie dat elke student suksesvol matriek sal slaag.
- Ons moet egter beklemtoon dat ons volle samewerking en toewyding vanaf elke leerder moet hê om die beste diens moontlik te kan lewer.
- Indien ons vra vir terugvoer, doen dit asseblief onmiddellik.
- Julle moet die vrymoedigheid hê om Le-Amen te kontak indien daar enigiets is waarmee ons kan help.
- Jy moet jou eie tutor reël, indien nodig, veral vir Wiskunde en Wetenskap.
- Daar is deesdae al hoe meer kandidate wat weens swak akademiese uitslae of dissipline probleme nie in 'n gewone skoolopset kan funksioneer nie. Afstandsonderrig word dan as 'n maklike uitweg gesien. Ons het egter gevind dat sodanige kandidaat nog minder suksesvol is met ons stelsel, aangesien IEB se standaard baie hoog is. **Kandidate wat dus akademies baie swak vaar of nie die nodige selfdissipline het nie, word dus aangeraai om eerder 'n ander roete te volg.**
- Ons kan nie leerlinge akkommodeer met remediërende en/of enige ander leerprobleme nie. **Geen konsessies word toegelaat.**

Learners

- Your matric year is very important and you will have to work hard as it is of a high standard.
- All learners are of importance to Le-Amen and it is our mission to see each and every student passing matric successful.
- We have to emphasize that we need your full co-operation and commitment to enable us to give you the best service.
- If we need any replies from you, please do so immediately.
- Feel free to contact us, should you have any query or problem that we can sort out.
- You need to get your own tutor if needed, especially for Maths and Science
- There is currently a trend that candidates who struggle to function in a normal school set-up due to poor academic results or problems with discipline want to enroll. Distance education is viewed as an easy way out. However we have found that such candidates are even less successful with our system, as the IEB has a very high standard. **Candidates who struggle academically or who lack the necessary self-discipline are therefore advised to rather follow another route.**
- We cannot accommodate any learners with remedial and/or other learning problems**. No special consession will be allowed.**

A14

Effektiewe Studiemetodes

- Om by ‘n tafel te sit en studeer is glad nie maklik nie – dit verg harde werk. Jy het energie en dryfkrag nodig.
- Baie tyd is nodig en die besteding van jou tyd is baie belangrik
- Beplan ‘n vaste roetine en hou daarby – dit verminder stres!
- Bly gemotiveerd deur jouself gedurig te herinner waarom hierdie studies belangrik is vir jou toekoms
- Hou jou liggaam gesond en fiks: eet gebalanseerd en vermy opkikkers soos koffie en wakkerbly-middels, slaap genoeg en oefen gereeld.
- Kies ‘n lekker plek om te werk met ‘n regop stoel en ‘n tafel waarop al jou boeke pas
- Hou alles wat jy nodig het byderhand: boeke, papier, penne, potlode, uitveër, liniaal, sakrekenaar, ens
- Maak seker dat die lig helder genoeg is, maar sonder om jou werk te laat blink
- Sorg vir vars lug en ‘n gerieflike temperatuur

E14

Effective Study Methods

- It is easy to underestimate the effort involved in sitting at a desk, studying. You need both drive and energy.
- Studying effectively takes time and good time management.
- Establish a routine and keep to it – it reduces stress!
- Stay motivated by constantly remembering the rewards that will be the result of this effort
- Keep your body healthy and fit: eat a balanced diet, avoid stimulants such as coffee and stay awake tonics, get regular sleep, and exercise
- Select a nice place where you can study with an upright chair and a table which is large enough to accommodate all your books
- Keep the following close at hand: books, paper, pens, pencils, erasers, ruler, pocket calculator, etc
- Good lighting is essential but prevents a glare.
- The room should be well ventilated and at a comfortable temperature.

A15

Doelstelling

- Korttermyn doelwitte: Dit is dalk ‘n goeie idee om die sperdatums vir opdragte te gebruik as korttermyn doelwitte. Jy kan dalk uitwerk watter afdelings per dag afgehandel moet word ten einde die opdragte betyds te kan voltooi
- Langtermyn doelwitte: Formuleer jou ideale vir jou toekoms. Hou altyd jou toekomsplanne voor jou. Dit sal jou help om te kan deurdruk met die korttermyn doelwitte

A16

Effektiewe gebruik van Tyd

- Dit is belangrik om te besef dat gereelde, uitgebreide studie beter is as kort periodes van intensiewe werk Baie meer word bereik in 5 ure as die tyd uitgesprei is oor een week as wanneer jy 5 ure aanmekaar werk op een dag
- Dit is ‘n goeie idee om ‘n aktiwiteitsrooster op te stel waar jy elke uur van jou dag beplan.
- Beplan die mees intensiewe werk vir daardie tye van die dag waar jy die lekkerste werk: vir sommige mense is dit vroeg in die oggend en vir ander laat in die aand
- Moenie vir langer as een uur ononderbroke werk nie. Jou konsentrasievermoë laat jou toe om net 45 minute goed te konsentreer. Hierna moet jy ‘n kort rukkie ontspan sodat jou verstand die werk wat jy geleer het, kan konsolideer
- Beplan genoeg ontspanningsaktiwiteite weg van jou studies af
- **Skaf vir jou ‘n jaarbeplanner aan** (meeste boekwinkels verkoop hulle) Beplan jou werk vir die jaar daarop. **Dui sperdatums en eksamens aan sodat jy kan sien of jy op koers bly.**

E15

Setting Goals

- Short-term goals: It may be a good idea to use the deadlines of assignments as your short-term goals. You could also divide the work with daily goals that will ensure that you complete an assignment before its due date
- Long-term goals: Develop a vision of what you want to do. Keeping your long-term goals in mind at all times will help you achieve your short-term goals

E16

Effective Time Management

- It is a general rule that evenly spaced, regular study is better than inconsistent, spasmodic bursts of effort. You will achieve much more in 5 hours at one hour per day than in studying for 5 hours at one time.
- It will help you to draw up an activity timetable to plan your day.
- Try and work at times which will be most effective for you: some people work best early in the morning and others later in the evening
- Our attention span is approximately 45 minutes. After that, our brain needs time to consolidate the material. Any study longer than one hour should include a short break.
- Plan activities completely free of study
- **Get a year planner** (most news agencies keep them) and plan your year ahead. **Indicate deadlines and exam dates so that you can see that you are on course.**

A17

Hoe om goeie opdragte te lewer

- **Maak opsommings**. Moenie net werk deurlees nie. Dit is belangrik dat jy aktief besig is met die materiaal. Deur opsommings uit te skryf verseker jy dat:
- Jy konsentreer op die werk waarmee jy besig is
- Die werk beter onthou word
- Jy notas het wat dalk makliker is om te leer net voor die eksamen
- Wees sistematies en georganiseerd in jou werk en rangskik jou aantekeninge op ‘n logiese manier
- As jy aandag gee terwyl jy werk, sal jy die werk makliker onthou. Dit is ook makliker om werk te onthou wat jy ‘n paar keer deurgewerk het
- Jou korttermyngeheue vergeet inligting baie gou. Slegs materiaal wat behoorlik bestudeer word, word oorgeplaas na jou langtermyngeheue
- Dit is dus belangrik dat jy werk effektief na jou langtermyn-geheue sal kan oorplaas. Wenke:
- Feite moet dikwels in die korttermyngeheue herhaal word
- **Jy kan slegs werk onthou wat jy ten volle verstaan**
- Begin altyd ‘n sessie deur te herroep wat jy kan onthou voordat jy dieselfde werk weer leer
- Om werk beter te kan verstaan moet jy daaroor nadink, daaroor praat, vrae vra, vrae uitwerk, ens
- Organiseer feite in ‘n logiese volgorde
- Gebruik “mind maps”
- **Die aanbieding van jou opdragte moet so netjies as moontlik wees** aangesien dit bydra tot die kwaliteit van jou werk en die toekenning van indrukspunte
- Maak seker dat jou werk leesbaar en interessant aangebied is

E17

How to submit effective assignments

- **Make your own notes as you study**. Note taking is an excellent way to ensure that you are actively busy with the material. Taking notes serves the following purpose:
- They are an aid to concentration
- They are an aid to retention of facts
- They are an aid to revision, especially in the time before the exam when you have to study hard
- Be systematic and organized and arrange your notes in a logical order
- Pay attention while you work so that the information can be retained better. Work that you have revised a number of times will also be remembered better.
- Your short-term memory quickly forgets information and only those items that were successfully encoded will be transferred to your long-term memory
- For information to be coded successfully for long-term storage, the following is necessary:
- It must enter the short-term memory often and be kept there long enough
- **Do not try to memorize work that you do not understand**
- You can better understand work by thinking about it, talking about it, asking questions, using it to answer questions, etc
- Construct well-organized notes
- Use mind maps
- **Presentation is very important when you submit work**. Even if the content is good, the initial impression is poor if the work is a mess.
- Present your work in an appealing, easy-to-read manner.
