MISSION STATEMENT: TO BE EDUCATED

If I learn my ABCs, can read 600 words per minute, and can write with perfect penmanship, but have not been shown how to communicate with the Designer of all language
I have not been educated

If I can deliver an eloquent speech and persuade you with my stunning logic, but have not been instructed in God's wisdom,
I have not been educated

If I have read Shakespeare and John Locke and can discuss their writings with keen insight, but have not read the greatest of all books – the Bible – and have no knowledge of its personal importance,
I have not been educated.

If I have memorized addition facts, multiplication tables, and chemical formulas, but have never been disciplined to hide God's Word in my heart.
I have not been educated

If I can explain the law of gravity and Einstein's theory of relativity, but have never been instructed in the unchangeable laws of the One Who orders our universe,
I have not been educated

If I can classify animals by their family, genus and species, and can write a lengthy scientific paper that wins an award, but have not been introduced to the Maker's purpose for all creation,
I have not been educated

If I can recite Gettysburg Address and the Preamble to the Constitution, but have not been informed of the hand of God in the history of our country,
I have not been educated

If I can play the piano, the violin, six other instruments, and can write music that moves men to tears, but have not been taught to listen to the Director of the universe and worship Him,
I have not been educated

If I can run cross-country races, star in basketball and do 100 push-ups without stopping, but have never been shown how to bend my spirit to do God's will,
I have not been educated

If I can identify a Picasso, describe the style of da Vinci, and even paint a portrait that earns an A+, but have not learned that all harmony and beauty comes from relationship with God,
I have not been educated

If I graduate with a perfect 4.0 and am accepted at the best university with a full scholarship, but have not been guided into a career of God's choosing for me,
I have not been educated

If I have become a good citizen, voting at each election and fighting for what is moral and right, but have not been told of the sinfulness of man and his hopelessness without Jesus Christ,
I have not been educated

However, if one day I see the world as God sees it, and come to know Him, Whom to know is life eternal, and glorify God by fulfilling his purpose for me,
Then, I have been educated!

GENERAL

Welcome at Le-Amen. We trust that it will once again be a wonderful year. Le-Amen wishes each family a prosperous and most joyous year ahead.

Le-Amen was born out of a passion for home-schooling. All the memories, blessings and success keep us going. To home-school your child is indeed a privilege and can never be measured with money! It is always a pleasure working with home-school students.

We have seen many excellent students come and go throughout the years. Many of them are now married and even home-school their own children!

The Le-Amen Education Centre was established in 1995. The name "Le-Amen" means "to train, to prepare and to guide a person"

Enjoy your children. Before you know, they are grown!

Please feel free to phone, should there be any query

E 10

MONITORING OF WORK (ONLY IF LE-AMEN REQUESTED IT)

Le-Amen will use own discretion and right to request that the learner/s books are handed in to be monitored to ensure that the assessment and the standard of learning is authentic and of the required standard. If necessary work books/material can be requested at any time during the year.

If Le-Amen does not request the work to be monitored, but you as the parent would like us to give a report-back, you are most welcome to arrange it.

- The work of learners (gr 4-6) is monitored by experienced teachers. They are able to assess the progress of the learners objectively.
- This ensures that learners will become used to the fact that a high standard of work is expected from them. Learners must be able to return to school, if necessary and find that they are on the correct level for the grade that they are in.
- Our staff and teachers are trained to ensure that no irregularities occur so we ask you as parents to ensure that the work is authentic and that the marks are allocated honestly.
- Parents of learners whose work is not on standard will be notified. A meeting will be arranged to find a solution
- Le-Amen keeps copies of reports in the learners' files for future reference.

A 10

MONITOR VAN WERK (SLEGS INDIEN LE-AMEN DIT AANVRA)

Le-Amen gaan eie oordeel en diskresie gebruik vir monitor van werk, indien nodig kan werksboeke/ materiaal enige tyd gedurende die jaar aangevra word om te verseker dat alle werk en assessering korrek en op standaard is.

Indien Le-Amen nie die werk aanvra nie, maar ouers wel graag wil hê dat die werk gemonitor moet word, is julle meer as welkom om dit so te reël.

- Die werk van die graad 4-6 leerders word deur ervare onderwysers nagegaan. Hulle is bevoeg om 'n objektiewe beeld te gee van die leerder se vordering.
- Dit verseker dat leerders weet dat daar 'n hoë standaard van werk verwag word. Leerders moet altyd op standaard wees om enige tyd terug te keer skool toe indien nodig.
- Ons onderwyssers en merk span word opgelei om seker te maak dat die werk outentieke is. Maak seker dat die werk eerlik en op die nodige standaard gedoen word.

E14

EFFECTIVE STUDY METHODS

- It is easy to underestimate the effort involved in sitting at a desk, studying. You need both drive and energy.
- Studying effectively takes time and good time management.
- Establish a routine and keep to it – it reduces stress!
- Stay motivated by constantly remembering the rewards that will be the result of this effort
- Keep your body healthy and fit: eat a balanced diet, avoid stimulants such as coffee and stay awake tonics, get regular sleep, and exercise
- Select a nice place where you can study with an upright chair and a table which is large enough to accommodate all your books
- Keep the following close at hand: books, paper, pens, pencils, erasers, ruler, pocket calculator, etc
- Good lighting is essential but prevent a glare.
- The room should be well ventilated and at a comfortable temperature.

A14

EFFEKTIEWE STUDIEMETODES

- Om by 'n tafel te sit en studeer is glad nie maklik nie – dit verg harde werk. Jy het energie en dryfkrag nodig.
- Baie tyd is nodig en die besteding van jou tyd is baie belangrik
- Beplan 'n vaste roetine en hou daarby – dit verminder stres!
- Bly gemotiveerd deur jouself gedurig te herinner waarom hierdie studies belangrik is vir jou toekoms
- Hou jou liggaam gesond en fiks: eet gebalanseerd en vermy opkickers soos koffie en wakkerbly-middels, slaap genoeg en oefen gereeld.
- Kies 'n lekker plek om te werk met 'n regop stoel en 'n tafel waarop al jou boeke pas
- Hou alles wat jy nodig het byderhand: boeke, papier, penne, potlode, uitveër, liniaal, sakrekenaar, ens
- Maak seker dat die lig helder genoeg is, maar sonder om jou werk te laat blink
- Sorg vir vars lug en 'n gerieflike temperatuur

E15

SETTING GOALS

- Short-term goals: It may be a good idea to use the deadlines of assignments as your short-term goals. You could also divide the work with daily goals that will ensure that you complete an assignment before its due date
- Long-term goals: Develop a vision of what you want to do. Keeping your long-term goals in mind at all times will help you achieve your short-term goals

E16

EFFECTIVE TIME MANAGEMENT

- It is a general rule that evenly spaced, regular study is better than inconsistent, spasmodic bursts of effort. You will achieve much more in 5 hours at one hour per day than in studying for 5 hours at one time.
- It will help you to draw up an activity timetable to plan your day.
- Try and work at times which will be most effective for you: some people work best early in the morning and others later in the evening
- Our attention span is approximately 45 minutes. After that, our brain needs time to consolidate the material. Any study longer than one hour should include a short break.
- Plan activities completely free of study
- Get a year planner (most news agencies keep them) and plan your year ahead. Indicate deadlines and exam dates so that you can see that you are on course.

A15

DOELSTELLING

- Korttermyn doelwitte: Dit is dalk 'n goeie idee om die sperdatums vir opdragte te gebruik as korttermyn doelwitte. Jy kan dalk uitwerk watter afdelings per dag afgehandel moet word ten einde die opdragte betyds te kan voltooi
- Langtermyn doelwitte: Formuleer jou ideale vir jou toekoms. Hou altyd jou toekomsplanne voor jou. Dit sal jou help om te kan deurdruk met die korttermyn doelwitte

A16

EFFEKTIEWE GEBRUIK VAN TYD

- Dit is belangrik om te beseft dat gereelde, uitgebreide studie beter is as kort periodes van intensiewe werk. Baie meer word bereik in 5 ure as die tyd uitgesprei is oor een week as wanneer jy 5 ure aanmekaar werk op een dag
- Dit is 'n goeie idee om 'n aktiwiteitsrooster op te stel waar jy elke uur van jou dag beplan.
- Beplan die mees intensiewe werk vir daardie tye van die dag waar jy die lekkerste werk: vir sommige mense is dit vroeg in die oggend en vir ander laat in die aand
- Moenie vir langer as een uur ononderbroke werk nie. Jou konsentrasievermoë laat jou toe om net 45 minute goed te konsentreer. Hierna moet jy 'n kort rukkie ontspan sodat jou verstand die werk wat jy geleer het, kan konsolideer
- Beplan genoeg ontspanningsaktiwiteite weg van jou studies af
- Skaf vir jou 'n jaarbeplanner aan (meeste boekwinkels verkoop hulle) Beplan jou werk vir die jaar daarop. Dui sperdatums en eksamens aan sodat jy kan sien of jy op koers bly.

E17

HOW TO SUBMIT EFFECTIVE ASSIGNMENTS

- Make your own notes as you study. Note-taking is an excellent way to ensure that you are actively busy with the material.
- Taking notes serves the following purpose:
 - they are an aid to concentration
 - they are an aid to retention of facts
 - they are an aid to revision, especially in the time before the exam when you have to study hard
- Be systematic and organized and arrange your notes in a logical order
- Pay attention while you work so that the information can be retained better. Work that you have revised a number of times will also be remembered better.
- Your short-term memory quickly forgets information and only those items that were successfully encoded will be transferred to your long-term memory
- For information to be coded successfully for long-term storage, the following is necessary:
 - It must enter the short-term memory often and be kept there long enough
 - Do not try to memorize work that you do not understand
 - You can better understand work by thinking about it, talking about it, asking questions, using it to answer questions, etc
 - Construct well-organized notes
 - Use mind maps
- Presentation is very important when you submit work. Even if the content is good, the initial impression is poor if the work is a mess.
- Present your work in an appealing, easy-to-read manner

A17

HOE OM GOEIE OPDRAGTE TE LEWER

- Maak opsommings. Moenie net werk deurlees nie. Dit is belangrik dat jy aktief besig is met die materiaal.
- Deur opsommings uit te skryf verseker jy dat:
 - jy konsentreer op die werk waarmee jy besig is
 - die werk beter onthou word
 - jy notas het wat dalk makliker is om te leer net voor die eksamen
- Wees sistematies en georganiseerd in jou werk en rangskik jou aantekeninge op 'n logiese manier
- As jy aandag gee terwyl jy werk, sal jy die werk makliker onthou. Dit is ook makliker om werk te onthou wat jy 'n paar keer deurgewerk het
- Jou korttermyngeheue vergeet inligting baie gou. Slegs materiaal wat behoorlik bestudeer word, word oorgeplaas na jou langtermyngeheue
- Dit is dus belangrik dat jy werk effektief na jou langtermyn-geheue sal kan oorplaas. Wenke:
 - Feite moet dikwels in die korttermyngeheue herhaal word
 - Jy kan slegs werk onthou wat jy ten volle verstaan
 - Begin altyd 'n sessie deur te herroep wat jy kan onthou voordat jy dieselfde werk weer leer
 - Om werk beter te kan verstaan moet jy daarvoor nadink, daarvoor praat, vrae vra, vrae uitwerk, ens
 - Organiseer feite in 'n logiese volgorde
 - Gebruik "mind maps"
 - Die aanbieding van jou opdragte moet so netjies as moontlik wees aangesien dit bydra tot die kwaliteit van jou werk en die toekenning van indrukspunte
- Maak seker dat jou werk leesbaar en interessant aangebied is
