Manual Gr 11

“... for me and my house, we shall serve the Lord.”

MISSION STATEMENT: TO BE EDUCATED

If I learn my ABCs, can read 600 words per minute, and can write with perfect penmanship, but have not been shown how to communicate with the Designer of all language

I have not been educated

If I can deliver an eloquent speech and persuade you with my stunning logic, but have not been instructed in God's wisdom,

I have not been educated

If I have read Shakespeare and John Locke and can discuss their writings with keen insight, but have not read the greatest of all books – the Bible – and have no knowledge of its personal importance,

I have not been educated.

If I have memorized addition facts, multiplication tables, and chemical formulas, but have never been disciplined to hide God's Word in my heart.

I have not been educated

If I can explain the law of gravity and Einstein's theory of relativity, but have never been instructed in the unchangeable laws of the One Who orders our universe,

I have not been educated

If I can classify animals by their family, genus and species, and can write a lengthy scientific paper that wins an award, but have not been introduced to the Maker's purpose for all creation,

I have not been educated

If I can recite Gettysburg Address and the Preamble to the Constitution, but have not been informed of the hand of God in the history of our country,

I have not been educated

If I can play the piano, the violin, six other instruments, and can write music that moves men to tears, but have not been taught to listen to the Director of the universe and worship Him,

I have not been educated

If I can run cross-country races, star in basketball and do 100 push-ups without stopping, but have never been shown how to bend my spirit to do God's will,

I have not been educated

If I can identify a Picasso, describe the style of da Vinci, and even paint a portrait that earns an A+, but have not learned that all harmony and beauty comes from relationship with God,

I have not been educated

If I graduate with a perfect 4.0 and am accepted at the best university with a full scholarship, but have not been guided into a career of God's choosing for me,

I have not been educated

If I have become a good citizen, voting at each election and fighting for what is moral and right, but have not been told of the sinfulness of man and his hopelessness without Jesus Christ,

I have not been educated

However, if one day I see the world as God sees it, and come to know Him, Whom to know is life eternal, and glorify God by fulfilling His purpose for me,

Then, I have been educated!

General

Welcome at Le-Amen Education Centre. We trust that it will once again be a wonderful year. Le-Amen wishes each family a prosperous and most joyous year ahead.

Le-Amen was born out of a passion for home schooling. All the memories, blessings and success keep us going. To home-school your child is indeed a privilege and can never be measured with money! It is always a pleasure working with home-school students.

We have seen many excellent students come and go throughout the years. Many of them are now married and even home-school their own children!

The Le-Amen Education Centre was established in 1995. The name “Le-Amen” means “to train, to prepare and to guide a person”

Enjoy your children. Before you know, they are grown!

Please feel free to phone, should there be any query

“Mama exhorted her children every opportunity to “jump at the sun”.
We might not land on the sun,
but at least we would get off the ground!”

The Le-Amen Policy

It is important that you know who is responsible for the different aspects of this important phase and what the role and expectations of Le-Amen are:

- The final responsibility for the effective preparation for the assessments lies with the grade 10 -11 learner
- Le-Amen deals directly with the learners and parents.
- Parents should provide the necessary support and encouragement
- Parents should always be informed about the progress of their children and to what extent they are meeting the requirements
- Le-Amen offers support in the form of material and the marking of assessment.
- Le-Amen does not want to be involved in personal and family problems.
- The staff at Le-Amen will not assume the role of reprimanding learners when poor work is submitted.
- **It is not Le-Amen policy to explain or give any report back on assignments.**
- The marked assessment stays the property of Le-Amen.
- No copies of the marked assessment will be made.

E8

Learners

- Your grade 11 year is very important, and you will have to work hard as it requires a high standard.
- All learners are important to Le-Amen and it is our mission to see each and every student pass successfully.
- We must emphasize that we need your full co-operation and commitment to enable us to give you the best service.
- Feel free to contact us, should you have any query or problem that we can sort out.
- You need to get your own tutor if needed, especially for Maths and Science
- There is currently a trend that candidates who struggle to function in a normal school set-up due to poor academic results or problems with discipline want to enrol. Distance education is viewed as an easy way out. However, we have found that such candidates are even less successful with our system, as the IEB has a very high standard. **Candidates who struggle academically or who lack the necessary self-discipline are therefore advised to rather follow another route.**
- We cannot accommodate any learners with remedial and/or other learning problems. **No special concession will be allowed.**

E15

Effective Study Methods

- It is easy to underestimate the effort involved in sitting at a desk, studying. You need both drive and energy.
- Studying effectively takes time and good time management.
- Establish a routine and keep to it – it reduces stress!
- Stay motivated by constantly remembering the rewards that will be the result of this effort
- Keep your body healthy and fit: eat a balanced diet, avoid stimulants such as coffee and stay awake tonics, get regular sleep, and exercise
- Select a nice place where you can study with an upright chair and a table which is large enough to accommodate all your books
- Keep the following close at hand: books, paper, pens, pencils, erasers, ruler, pocket calculator, etc.
- Good lighting is essential but prevent a glare.
- The room should be well ventilated and at a comfortable temperature.

E16

Setting Goals

- Short-term goals: It may be a good idea to use the deadlines of assignments as your short-term goals. You could also divide the work with daily goals that will ensure that you complete an assignment before its due date
- Long-term goals: Develop a vision of what you want to do. Keeping your long-term goals in mind at all times will help you achieve your short-term goals

E17

Effective Time Management

- It is a general rule that evenly spaced, regular study is better than inconsistent, spasmodic bursts of effort. You will achieve much more in 5 hours at one hour per day than in studying for 5 hours at one time.
- It will help you to draw up an activity timetable to plan your day.
- Try and work at times which will be most effective for you: some people work best early in the morning and others later in the evening
- Our attention span is approximately 45 minutes. After that, our brain needs time to consolidate the material. Any study longer than one hour should include a short break.
- Plan activities completely free of study
- **Get a year planner** (most news agencies keep them) and plan your year ahead. **Indicate deadlines and exam dates so that you can see that you are on course.**

E18

How to submit effective assignments

- **Make your own notes as you study.** Note-taking is an excellent way to ensure that you are actively busy with the material. Taking notes serves the following purpose:
 - they are an aid to concentration
 - they are an aid to retention of facts
 - they are an aid to revision, especially in the time before the exam when you have to study hard
- Be systematic and organized and arrange your notes in a logical order
- Pay attention while you work so that the information can be retained better. Work that you have revised a number of times will also be remembered better.
- Your short-term memory quickly forgets information and only those items that were successfully encoded will be transferred to your long-term memory
- For information to be coded successfully for long-term storage, the following is necessary:
 - It must enter the short-term memory often and be kept there long enough
- **Do not try to memorize work that you do not understand**
- You can better understand work by thinking about it, talking about it, asking questions, using it to answer questions, etc
- Construct well-organized notes
- Use mind maps
- **Presentation is very important when you submit work.** Even if the content is good, the initial impression is poor if the work is a mess.
- Present your work in an appealing
